Speaker: Joel Gittelsohn, PhD, MS, Professor, International Health, Behavior, and Society
Topic: Environmental interventions for chronic disease prevention: The Healthy Stores projects
Date: January 24, 2012
Time: 2:00-3:00pm
Location: Green Quad, The Learning Center for Sustainable Futures, Room 103

The Learning Center for Sustainable Futures is a one-story building in the middle of the Green Quad. The Quad is located south of Wheat Street, between South Main and Sumter. There is a walkway through the middle of the Quad running between South Main and Sumter, and the entrance to the Learning Center is off the walkway among four palmetto trees.

Parking is most easily available on the top level of the Sumter Street parking garage (as you drive down the hill on Sumter, from Blossom toward Wheat, take the first driveway on your right). Some parking is also available along Sumter and South Main streets. Three university parking lots are nearby, one on South Main between Blossom and Wheat and the other two are off Sumter Street, farther down the hill (south) past the overhead bridge.
